## EXECUTIVE SUMMARY

I am a final-year Information Technology student and an aspiring IT Developer with a strong foundation in building digital solutions. Through my extensive experience as a Freelance Developer, I have delivered a diverse range of professional applications, gaining hands-on expertise in creating reliable and user-centered systems. I am deeply interested in digital business growth, and I am eager to help companies expand their customer base by developing efficient digital tools as an IT Developer.

## EDUCATION

**Bachelor of Information Technology, Institut Bisnis dan Informatika Kesatuan** 2022 - sekarang

- GPA : 3.46 / 4.00
- Relevant Coursework : Full-stack Web Development, Data Structures & Algorithms, Software Engineering, Database Management Systems, and IT Project Management.

## PROFESSIONAL EXPERIENCE

### Freelance IT Developer

**bisnis dan hukum (Legal-Tech & Education Platform)** Nov 2025 - sekarang

- Developed a multi-functional educational platform using Laravel and MySQL that supports digital product sales (E-books), blogging systems, and legal literacy resources.
- Integrated secure payment flows for digital products and implemented a scheduling system for both virtual Zoom meetings and offline event registrations.
- Designed a scalable database architecture to efficiently manage diverse content types, user registrations, and legal resource access.

**Salesmarkethink (E-Learning & Membership Platform)** Okt 2025 - Nov 2025

- Architected and developed a comprehensive LMS and Membership platform using Laravel and MySQL, focusing on structured course delivery through integrated video content and technical articles.
- Implemented a robust subscription-based system (Monthly/Yearly) with advanced access control logic to manage premium content access for professional users.
- Ensured high-performance system integrity by optimizing database schemas and payment workflows to provide a seamless learning experience for developers and marketers.

**gran harmoni cibitung (Real Estate Company Profile)** Apr 2025 - Mei 2025

- Designed and deployed a professional company profile website using WordPress to establish a strong digital presence for a major real estate project.
- Developed a structured digital showcase for various housing categories (Subsidized & Commercial), providing detailed information on property types, facilities, and strategic locations.
- Optimized website performance and SEO strategies to ensure fast loading times and high search visibility, effectively supporting the marketing team in attracting potential homebuyers.
